

HIDDEN CLOUD BACKUP SERVICES

Professional Backup & Disaster Recovery Solutions for Bahrain Businesses

Automated, Enterprise-Grade Data Protection

Your business data is one of your most valuable assets. Hidden Cloud protects your files, emails, and business-critical information against ransomware, accidental deletion, hardware failure, employee mistakes, theft, and unexpected disasters.

Even if an employee forgets to save their work, even if a computer fails, even if ransomware encrypts your files — your data remains protected and recoverable.

Why Choose Hidden Cloud?

- ✓ Automatic backups with no user intervention
 - ✓ Protection against ransomware and cyber threats
 - ✓ Recovery of lost, deleted, or damaged files
 - ✓ Secure encrypted storage
 - ✓ Local Bahrain-based support
 - ✓ Arabic & English support
 - ✓ Fast data restoration when you need it most
-

What Gets Protected?

Business Documents

- Microsoft Word documents
- Excel spreadsheets
- PowerPoint presentations
- PDF files
- Other business-critical files

Microsoft Outlook Backup

- Complete Outlook email protection
- PST file backup
- OST file backup
- Email recovery when needed

Open File Protection

Using Microsoft VSS (Volume Shadow Copy Service), files can be backed up even while they are being edited or actively used.

AutoRecover Protection

Even unsaved work can often be recovered through protected temporary and AutoRecover files.

User Data

- Desktop folders
 - Documents folders
 - Downloads
 - Personal business files
 - Custom folders
-
